AMERICAN REVOLUTION BICENTENNIAL
1776-1976

"Why did the yearbook staff ask me so many questions?" (Student Body)
"For the bicentennial, the Vaquero wanted to print quotes from what we call star spangled people, or Americans that shine in whatever they've chosen to do. So we talked to as many of you as we could because if you're a student at Chaparral you're a star spangled person!" (Lisa Riley)

Valedictorians

"Once I saw a chance, then I tried for it--valedictorian is something to shoot for. I plan on going to UNLV for the first two years then on to a university with an accredited cinema program, such as USC or UCLA and I hope this honor will help me. I really think it's worth it. The help from the teachers was great." (Bob Blaskey)

I guide

"Administration is a vital component of any high school. At Chaparral we are striving to specifically prepare students for assuming later performance roles of adulthood, in a climate richly filled with positive experiences."(Carolyn S. Reedom)

Mrs. Reedom became the new Vice Principal in charge of curriculum in November of '75 here at Chaparral.

*Chaparral's administration, **left to right, front row,** Mr. Carroll R. Russell, Assistant Principal, Mr. Larry G. Olsen, Principal, **back row,** Mr. Donald F. Smith, Assistant Principal, Dr. Richard E. Brown, Assistant Principal.*

I lead

"It's really been great representing Chaparral and having a chance to get inside the student government. I wish every student could have the chance to participate in the school activities. And it was an experience I'll never forget. As for the administration, they were fantastic. Nothing could have been accomplished without their help. To the class of '76, I wish good luck upon all of you. (Craig Boyle)

"I feel student council has been a very unique experience for me. Your eyes are opened to a lot of things, both good and bad. I have had the honor of being involved...Running for vice-president was one of the smartest things I've ever done. (Barry Diamond)

I'm a member

"I joined student council to become involved and aware of school activities. I also wanted an active part in making my senior year the best for myself and the rest of the graduating class. I feel our student body president Craig Boyle and vice-president Barry Diamond put extra effort above their duty to make the bicentennial class of '76 the best Chaparral will ever have." (Valerie Mendoza)

Student council, ***left to right, front row,*** *Kim McNeil,* ***second row,*** *Valerie Mendoza, Paula Dodd, Michelle Cosgrove, Edie Horn, Carol Hager,* ***back row,*** *Barry Diamond, Cindy Moody, Elizabeth Olvera, Laronda Tinsley, Craig Boyle,* ***not pictured,*** *Ruth Robinson, Maureen Shaughnessy, Pat Fair.*

I perform

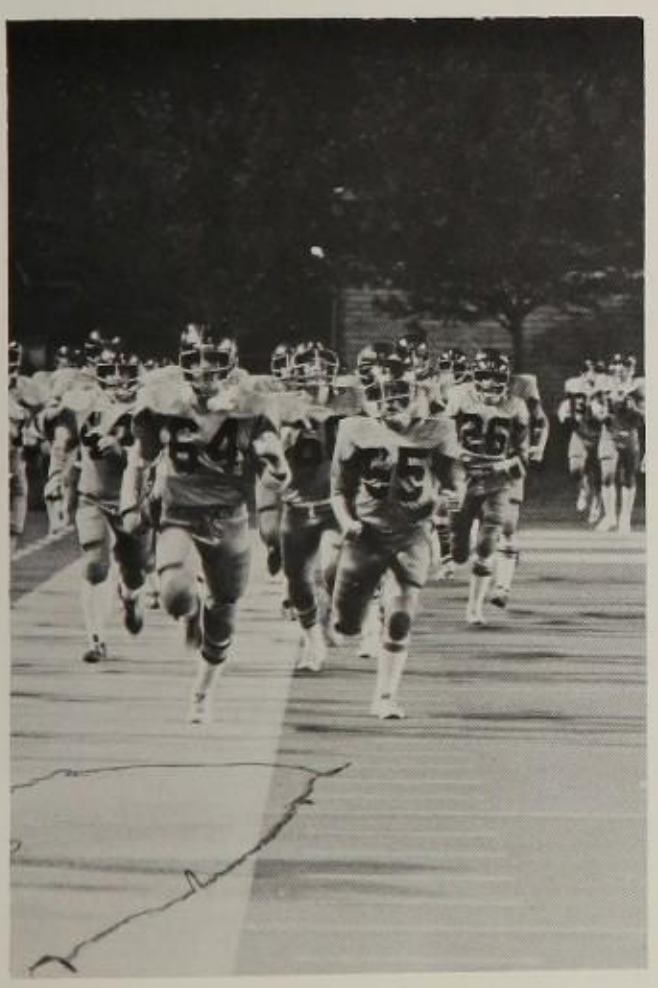
"It's kind of a challenge. You work for hours on one routine trying to perfect every little detail and then when you're out there performing you realize it's all worth it." (Lisa Hammitt)

"I've never felt so much a part of anything before and even if they made us live in those leotards, I'd never give up being a Caballera." (Kim Koiser)

I take pride

I come home

"One of the most important events in a senior's school year is homecoming. I have always looked forward to my senior year and to homecoming with enthusiasm because of it's inherent glamour and excitement. I feel honored to be a part of this memorable occasion and I will always reflect on it as a time of spirit, suspense and joy." (Pam Terry)

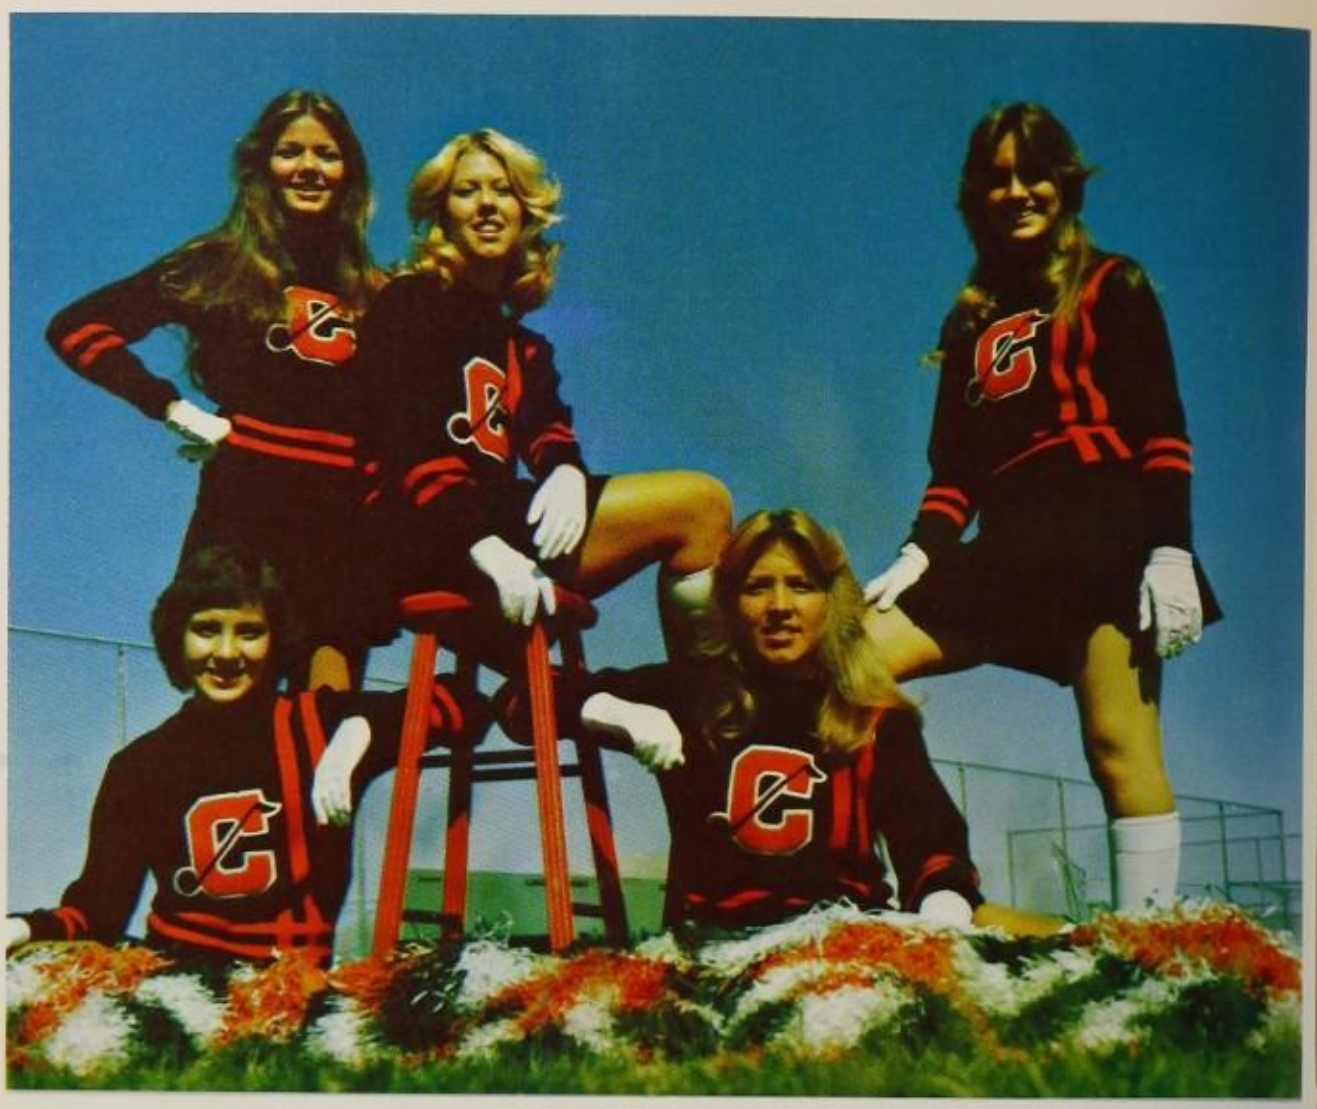


*The Homecoming Queen and her court, **left to right,** Pam Terry, Greta Gammon, Jackie Nielson, Homecoming Queen, Debbie Dickinson, and Nikki Turner.*

I support

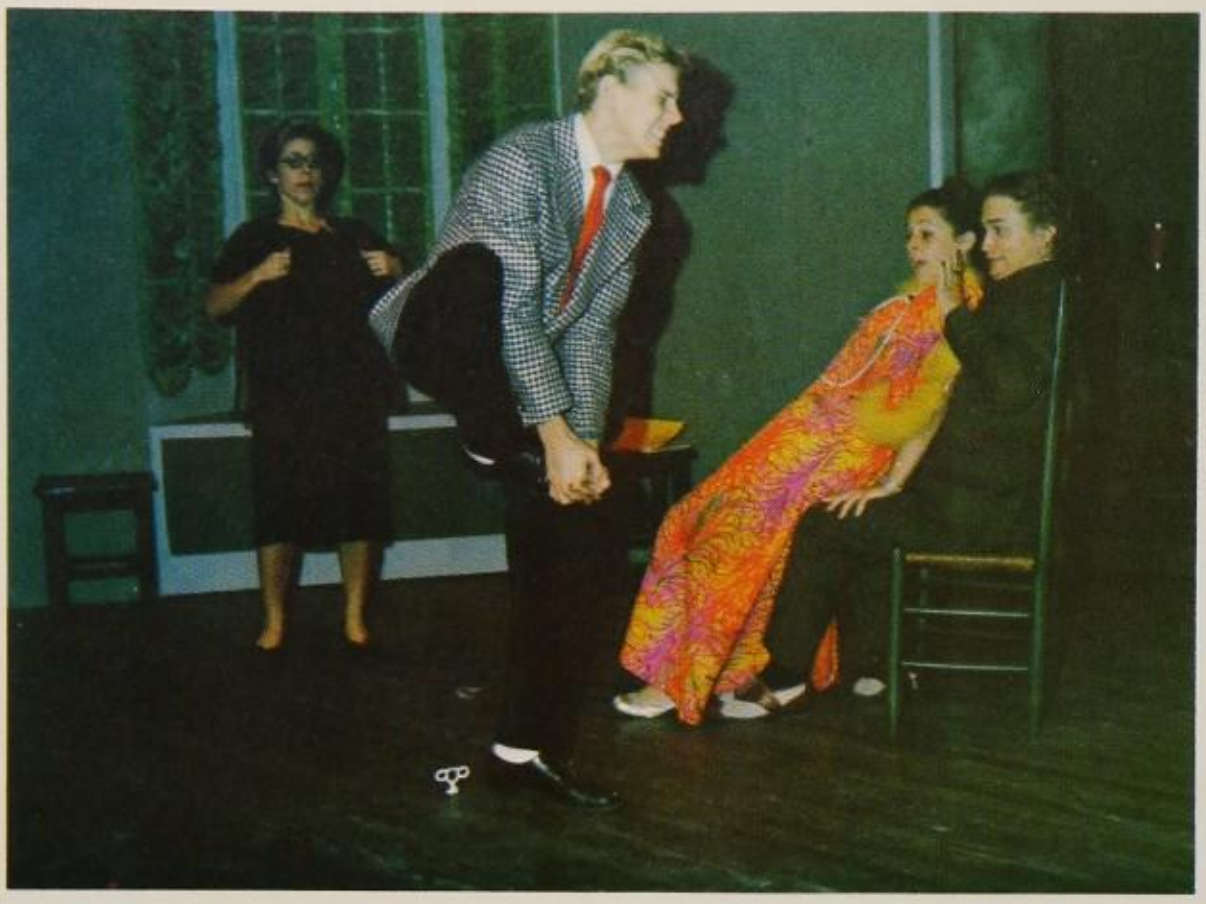
"I feel that being a cheerleader has shown me the best way of promoting spirit in and out of school. (Pat Hamilton)

"Through the wind and rain, pulled muscles and falling off your stool, you're out on the field giving all you've got." (Cheryl Cox)



I compete

"Running is a skill that I can perform fairly well in, and I've always enjoyed it. I like the physical exertion in the sport. I also enjoy the feeling of winning when I'm fortunate enough to do so. The training is hard, but it proves worthwhile. You gain experience in competition. The process of training increases physical endurance and develops skill. Also, if fortunate enough, receiving merits in the performance is rewarding." (James Hammons)



"Opening night is really weird--you're dying to get out there but you're afraid. Afraid of the play not going well, the audience not liking it, forgetting your lines and how you're going to cover it up. When it's all over, and if it goes well, you feel like you've accomplished something...you feel exhausted and great..." (Linda Navarro, star of "The Torch Bearers," the theater departments' first play of the 75-76 season)

I act

"My paintings are a part of me that I show very few people. Some people have to yell and cry to let off emotions. My most hidden feelings are on canvas displayed for anyone's eyes." (John Bayley)

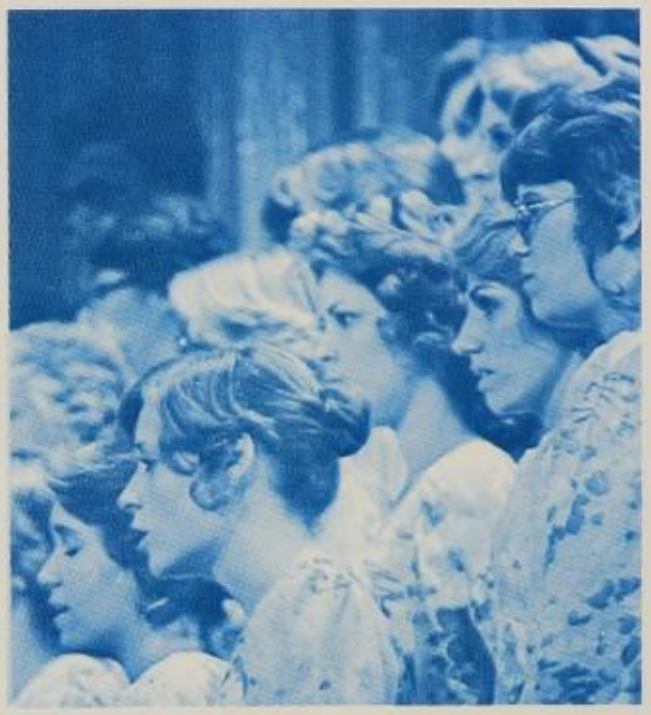
I create

"You really have to be able to sing, move, and have a lot of rhythm." (Ted Baxter)

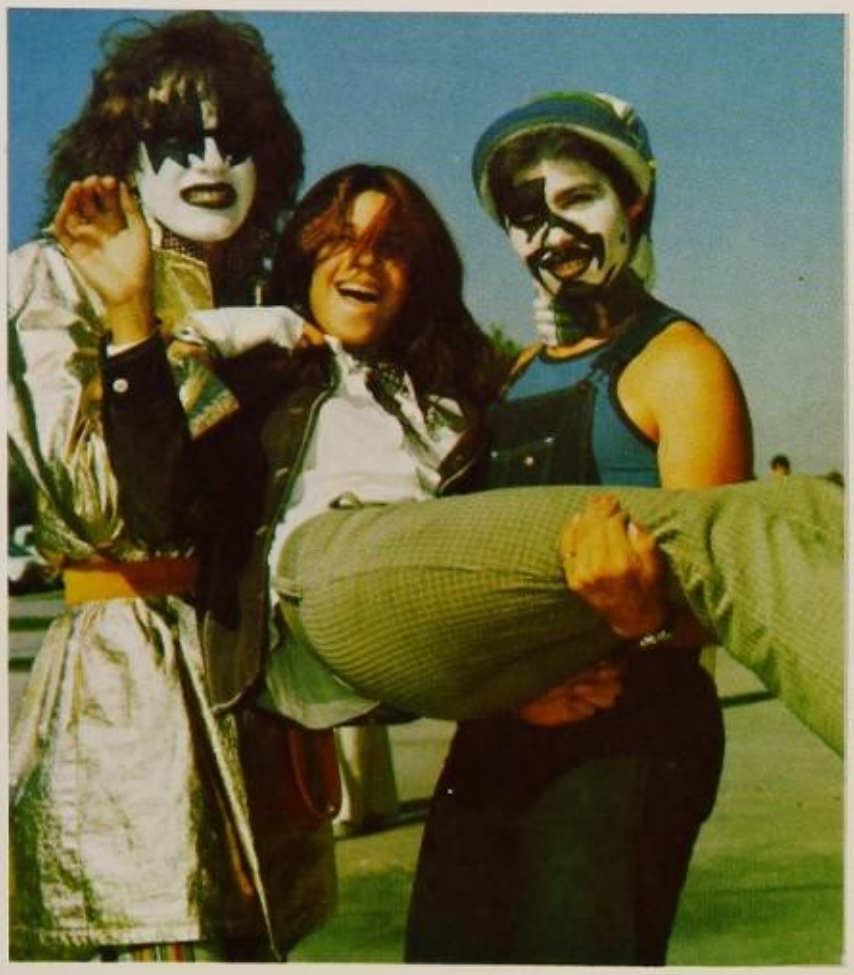
I make music

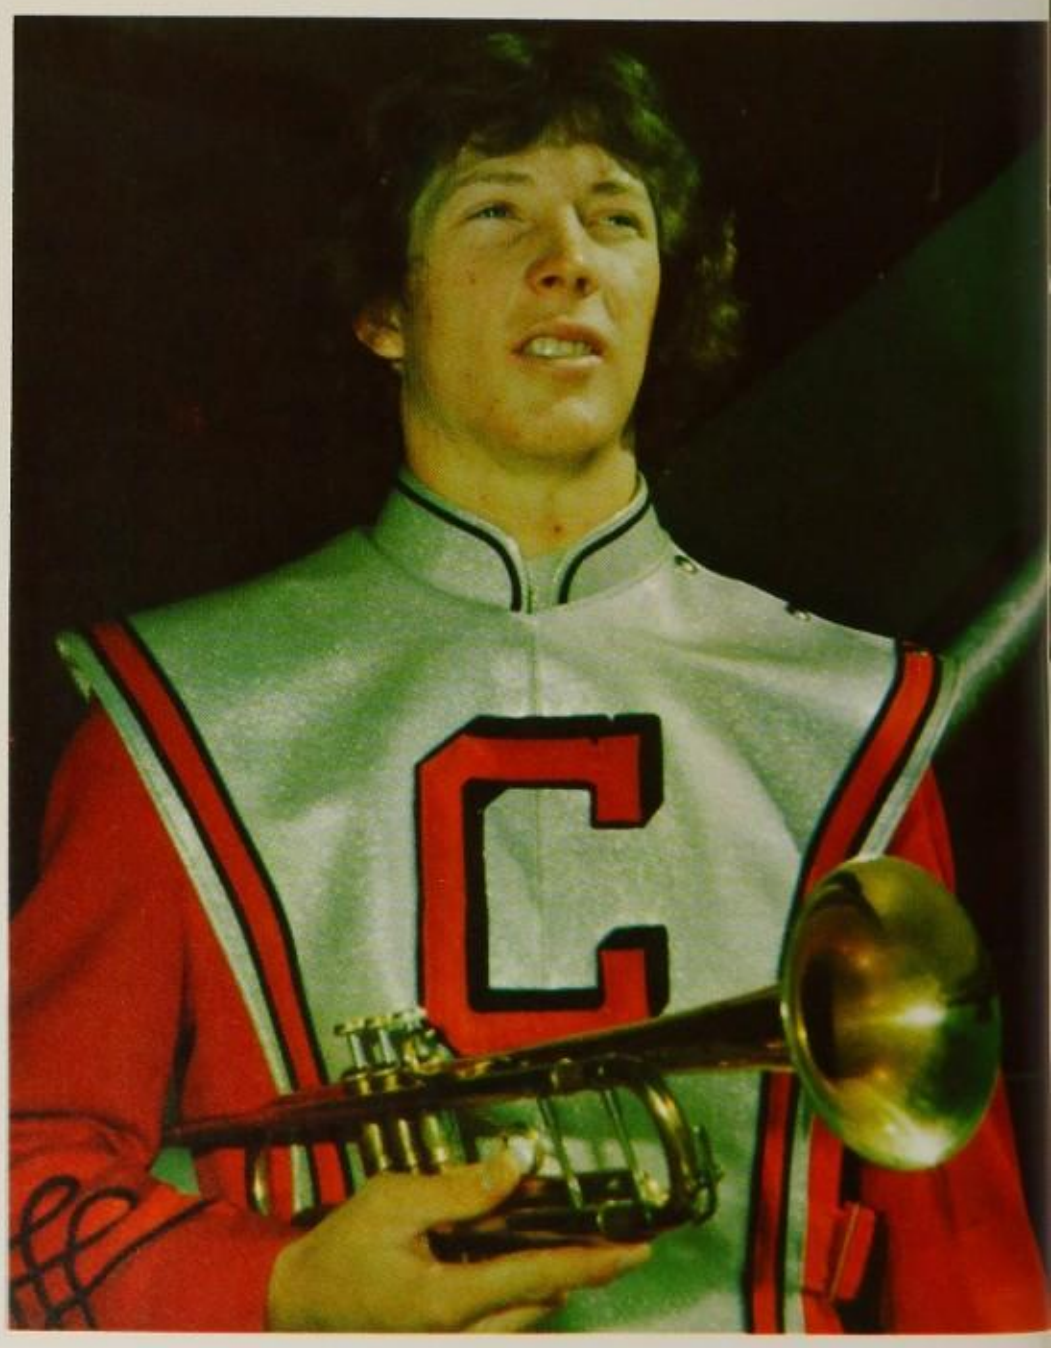
"It's nice to be out there doing something. It takes a lot of work but it's worth it...even if it goes off bad. It helps build school spirit." (Glen McMillion)

"I feel that chorus is a great musical experience. I have learned a great deal of music and have learned to appreciate it also. It makes you feel really proud to hear a great seventy-piece choir and to know that you are a part of it." (Lindsa Kizzia)



I experience





"It is an honor to be a part of the Bicentennial celebration. I gain experience in being with people from all over the U.S." (Stacy Morrison, a member of McDonald's All American High School Band)

"School is very different here than in Sweden, but now when we are accustomed to the changes we are real comfortable and happy. All our teachers are warm, friendly and very helpful. Football is a new and exciting experience for us. But perhaps we had a bit different idea of how 'cowboys' were supposed to be until we came to Chaparral, but these too are nice." (Elisabeth Swahn)

"The reason that I came over here was that I visited my relatives last year in California and I really liked the way people lived. I also had a few friends that had been over in the U.S. as exchange students and they told me alot about their experiences and that made me very curious to go over and see how it really was." (Carina Bergstrom)

"Work is not an obscene four letter word." (Mr. and Mrs. W. Knudsen)

The years have flown so quickly
as you recall the past,
And there are many memories
which in your mind will last.
Like that first day of first grade
when you had to leave home,
And felt so very much afraid;
so really all alone.
Then you zipped through grade school;
next was Junior High.
High School then did enter in
and now we say good-bye.
How nice for you to celebrate
the birthday of this land,
By stepping out into the world....
diploma in your hand.
Hope days gone by were happy,
that memories are fun,
And wish you love and happiness
in all the years to come.

(A. Edwards)

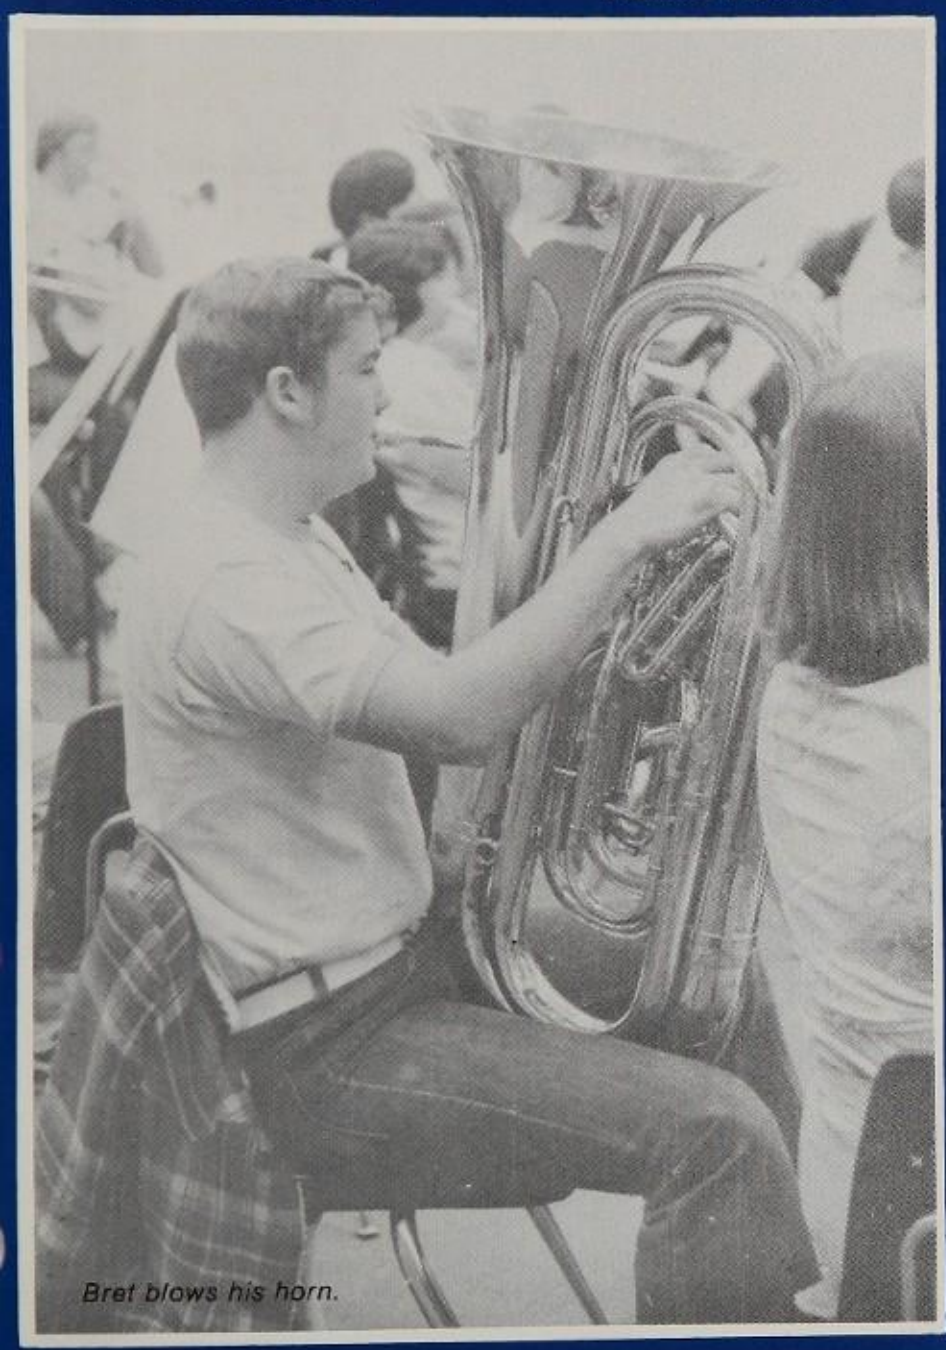
Who was Kilroy? No one knew. Some thought that he was a sergeant, absent without leave, who wandered mysteriously over the world, writing the familiar inscription wherever he went.



Bret blows his horn.

Bill Wellman ponders the unponderable.

What is the spirit of '76?

"It seems far too commercial. But in essence it should be people doing activities for the promotion of freedom and not just to cash in on a dollar or two, but to promote the future of democracy not capitalistic selfishness." (Greg Jaramillo) "It's reviving the spirit our ancestors had when they made this nation free for all of us. It's also being proud and offering no apologies for what we have become and are becoming today, in short, being proud of each other. Right on '76" (Butch Sinks) "Getting involved in our country...the best way to keep the spirit of '76 is to continue being part of our government so we may continue to be a free and productive country." Army/Navy Retreat

"Three years ago, Glen Alleman decided we should do something to prepare for the Army/Navy game. Being a History buff, he brought forth his civil war cannon and set it off at a routine lowering of the flag at the end of the school day.

The following year, Mr. Alleman mustered his force and formed the Army of Southern Nevada enlisting members of the school staff. The tradition has been carried on with invitations to participate extended to many dignitaries both living and dead. This year all students were allowed to enjoy the ceremony. It's a spirit builder with no particular object in mind; however, since we've begun, Navy has won every game." (Commander Shields)

"I was part of the panel which discussed 'The World.' I felt the students discussed intelligently. Everyone became involved but there was falsified information presented which was not corrected by the moderator. In spite of that, the reaction of the students was an enthusiastic one. As a result, the discussion was interesting. The issue our group was most involved with was the controversy as to whether or not the United States should give financial aid and/or military troops to Israel. The concensus of the group was that the situation in Israel is the most pertinent problem in the world at the moment; however I feel that the problem which merits the most immediate attention is poverty. Future Business Leaders of America

"Future Business Leaders of America for many years has provided a valuable training ground for young people who want to prepare themselves for positions of responsibility in the business community. As President, I hope that our club will be able to uphold these goals. Our organization now has 102 paid members with the largest FBLA chapter in the Nation having 150 members. Since the beginning of the school year, our club has been striving to raise money with fund raising activities such as selling candybars, Christmas cards and candles, and jewelry. We are earning money to send all our club members to the State Convention in Reno this March. At the convention we compete against many High Schools in the State of Nevada in various business skills. There is competition in shorthand, typing, job interviews, accounting and many other areas. All first place State winners go to the National FBLA Convention which is in Washington D. C. this year." *"I see Ecology Club as a worthwhile club, although it is hard to find the direction in which to move since pollution is a broad subject. For ecology club you pick a small section of the pollution scene and work on it. You can't clean up **all** the pollution but you can help." (Mr. Kreuzer)*

"Pollution is a terrible thing, and I believe that if we really work together we can wipe it out. This is the goal of the Cowboys Against Pollution. Even though we weren't always successful in all our projects, I think maybe this goal was brought a little bit closer because of our efforts." (Debbie Hodler)

Debate Club/ Fishing Club

"The fishing club's main goal is to provide the club members, and the mentally, physically handicapped, and blind, with the opportunity to go fishing. We take about 12 fishing trips every season. We learn fishing and sportmanship. It also provides the student with outdoor activity time and it's a lot of fun." (Gary Wells)

"The debate club represents Chaparral High School. We compete in debate, oratory, impromptu, extemporaneous, expository, and spontaneous argumentation. It also gives the student a chance to learn how to speak in front of large or small groups. We go on tournaments in and out of state to compete for medals, trophies, and certificates. The interchange of ideas between students is well worth the experience." (Gary Wells)

"The Art Club was designed to advance the appreciation of arts and crafts at Chaparral High School." (Don Jacobson)

Language Clubs

"I like the club because it's pretty active. We always have something going on and we go places a lot. I decided to join again because I had a lot of fun last year and when we had elections at the end of the year, I was elected to be president and I just thought it would be fun to be the leader of the group." (Michelle Cosgrove, French Club)

"I like to see the students enjoy the friendship of other French students. The members put in a lot of effort toward our fund-raising activities." (Mrs. Foote, advisor of French Club)

"I like going places a lot, but what I like best is going out to eat, especially on picnics because the food's free. I joined the club again because it gives me the chance to meet other people who are studying the same language I am." (Frank Brown, German Club)

New Talents Revealed in Charlie Brown Tryouts

Many weeks before the play auditions are held for the different roles. Every student has an opportunity to try out, but there is a limited number of parts and only a few students can be chosen.

"I liked playing the part of Snoopy because I've been working with a lot of great people towards one single goal: good entertainment worth watching, the finished production of the play. This is the first play I've been in and I definitely think I've become a better actor. Also, I think Mr. Paul is a really good director. He understands the cast members' personalities really well. He works very hard at making the play a success." (Vince Gulino)

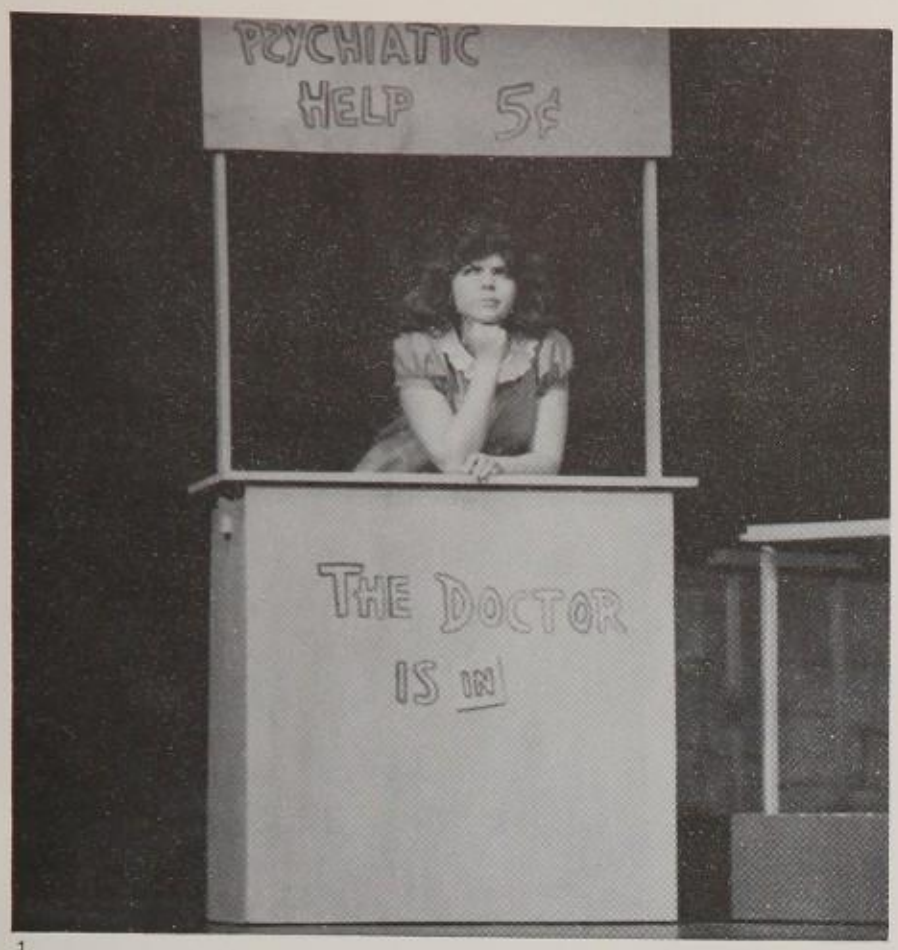
1. "Firmly I vowed I would win for her, and I shouldered my bat." 2. "Happiness is being together in the evening." 3. "I would have made a terrific trophy." 4. "Don't talk to me, Linus; I don't deserve to be spoken to." 5. "The very, very end...a book report on Peter Rabbit."



1

2

"Charlie Brown was a part made for me. It was my childhood on stage. When I heard the school was doing the play, I had to audition. The cast was great to work with and every member portrayed their part well. I'm thankful that the first play I was in had such great material. The most rewarding part of the play, besides the recognition, was working with Mr. Paul. The whole atmosphere was very professional. It didn't seem like a high school play at all." (John Bayley)

Chaparral Varsity and JV Wrestling Undefeated for Second Season

"The Chaparral Cowboy Wrestling Team had their most outstanding season ever. Our team posted a record of 11 wins and 0 losses, bringing our total winning streak to 22 wins and our three year record to 28 wins and 3 losses. We can attribute our season to having more depth, more speed, and more skill than ever before. The fine support of the fans helped along with hard work and determination in building the success of Chaparral's finest group. This season the varsity scored an average of 55½ points per match and only gave up 8 points per match. The total individual varsity record was 181 wins, 48 losses, and 4 ties. There were 89 opponents pinned and only 9 Cowboys. This year we are losing the most fantastic group of seniors ever, but a super group of JV wrestlers will be taking their place. The JV's have a record of 10-0 this year and scored an average of 64 points a match with only 9 points being scored against them. The JV's had 65 pins and were only pinned 9 times. This fantastic group of wrestlers took the City Championship with 7 first places, 2 second places, and 3 third places. The freshman had a record of 9 wins and 1 loss in the first year of freshman competition. This has truly been our finest year." (Coach Dennis Finfrock)

"Its truly been a pleasure being a part of the Chaparral Wrestling Team, and I hope that the knowledge that I have gained from Coach Finfrock, Coach Barnson, and the Pin Pals will make me a better wrestler in the future. (I wish Chaparral many victories in the future.)" (Charles Blalark)

School Board

"The large majority of people today can survive nicely without knowledge of history, science, literature, or the social sciences. Indeed many can function,and are functioning well without any real computation skills.

Television provides an adequate substitute for reading novels, going to the theatre, or reading newspapers. An $8.95 pocket calculator will patiently figure out your income tax, interest payments and grocery purchases.

Some thirty percent of us, however, will have to fulfill positions of leadership, positions that require thinking, literate articulation of those thoughts and a vast reservoir of knowledge required to make important decisions.

The School District cannot decide whether to place you among the seventy or thirty percent. The choice is all yours. Now." (Dr. H. Van Betten)

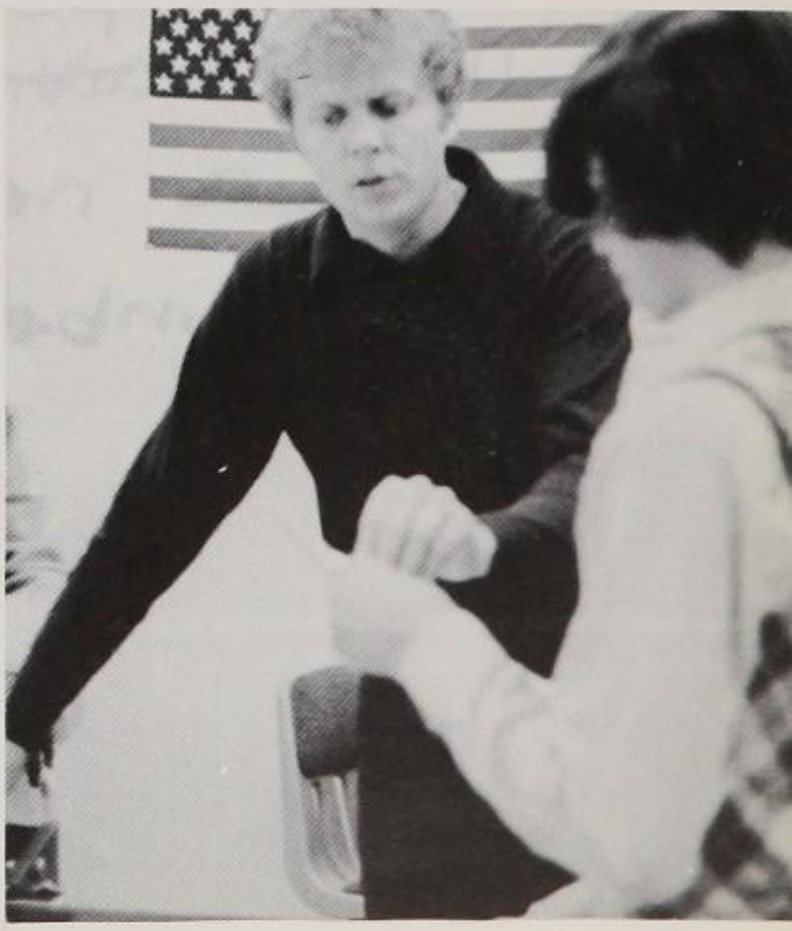
Mr. Miller points out copy to a newspaper staff member.



"I believe very strongly that we as students and faculty of Chaparral High School should evaluate this bicentennial year with humility and pride. This is the greatest country on the earth and to take lightly the celebration of our 200th year of freedom shows a shallowness and lack of patriotism that could lead to our demise." (John Miller)

1. Dr. Brown and Mrs. Anderson congratulate Lisa Riley, a Nevada Family Leader of Tomorrow. 2. Bob Blaskey accepts a savings bond won in a speech contest from a VFW representative as Mr. Olsen and Mr. Perry proudly watch. 3. Lisa Hammitt was chosen the Bicentennial Senior from Chaparral by writing a bicentennial minute and the essay below.

"We the people of the United States..." so begins the Preamble to the Constitution, a document that combines the thoughts and endeavors of the most important individuals in America's history. Without the great achievements of our Founding Forefathers America wouldn't be the great nation it is today. With this profound statment the question arises, is America really a great nation?

Many people don't realize the significance of our country's first years. As America grew, philosophies, ideas and beliefs of great men took part in the making of our nation. Though they don't receive much recognition, the first sessions in Congress were vitally important. It was at these first meetings that John Adams proposed the need for the colonies to form new governments, that eventually led to Richard Henry Lee's historical motion, "Resolved that these United Colonies are and of right ought to be, free and independent states..." It was during this period that the cornerstone of a great nation was laid, "When 13 clocks were made to strike as one." From the first meeting of the First Continental Congress came the inspired thoughts of men dedicated to the building of a democratic nation which was responsible for the creation of the documents of American democracy -- the Declaration of Independence, the Constitution and the Bill of Rights -- the foundations upon which our nation was built.

America was born and raised on freedom. Since the time of the first settlers in America until today, freedom has united the people in one common goal. We are a free people. Americans have more individual freedom and liberty than many people could dream of. The government of America is the only government that is not only, of and for the people, but by the people as well.

The youth of America have accepted many of the challenges of building the country, representing the most active and outspoken elements of our free society. James Madison, at age 25, was a delegate to the Virginia Assembly and the General Assembly. Alexander Hamilton was only 32 when he called the Constitutional Convention; and at the age of 18, James Monroe crossed the Delaware with George Washington. The birth of our nation would have been an impossibility had it not been for the dedicated action put forth by the people who made this country.

Yes, America is a great nation emerging from 13 separated colonies into one United Republic. We as the youth of America have a great challenge ahead. As individuals, we must speak out and make known that which we firmly believe. Together we must unite in the preservation of our country's heritage and create a common bond of faith in all Americans. With this faith, Americans will forever hold fast to the individual freedoms and liberties that set our nation apart from all others, and America will always be the great nation that it has been in the past and continues to be today.
